TO WHOM IT MAY CONCERN

LETTER OF CONFIRMATION ON PARTNERSHIP BETWEEN UNICEF AND ESST

During 2008 and 2009 UNICEF partnered the Educational Support Services Trust (ESST) for a project that assisted the victims of xenophobia in Cape Town, with a particular focus on the reintegration and education of displaced refugee child victims (and their families) of xenophobic violence into local communities in the Cape Peninsula.

UNICEF funded ESST for the direct work that they did in the communities as they had the requisite expertise and capacity to ensure that this intricate undertaking proceeded smoothly. Their experience in working directly with impoverished and needy communities was critical in ensuring that individuals were assisted with the requisite care and compassion.

Throughout the partnership ESST accounted professionally and timely for the funds that were allocated to them. It was a pleasure working with an accountable and responsive organisation such as ESST.

You are most welcome to contact me should you have any queries.

Yours sincerely
