PROGRAMME ON ENTREPRENEURSHIP DEVELOPMENT AMONGST THE YOUTH

This serves to confirm that the Educational Support Services Trust (ESST) presented to The Presidency (Strategy and Special Projects Unit in the Office of the Deputy President) a proposal on entrepreneurship development amongst the Youth.

The methodology by ESST is community-based and the end-user material, in the language of choice, provides a step-by-step guide through which entrepreneurial attitudes, perceptions and skills can be inculcated.

The well-researched methodology of shared learning, shared meaning-making and shared action, which underpins the programme, is unique in its inclusivity – any person can indeed become an entrepreneur and start their own business. Likewise, the facilitators' guide enables any individual to come to the fore and play a leadership role.

We commend the proposal by ESST and encourage its support from whom ever are able to.

Yours sincerely

A handwritten signature in black ink, appearing to be 'L. Matemba', with a long horizontal line extending to the right.
